WORK EXPERIENCE

Frontend Web Developer
Freelance Web Development
01/2023 - Present   *Remote, Nigeria*

Achievements/Tasks

- Implemented responsive designs using Figma, HTML5, and CSS3, enhancing accessibility across devices and screen sizes.
- Collaborated with clients, ensuring satisfaction through effective communication and understanding.
- Improved development efficiency by incorporating Typescript into the code workflow, resulting in a 50% increase in productivity
- Boosted React proficiency, achieving 30% faster development and seamless scalability.
- Managed version control using Git, facilitating seamless collaboration with team members and efficient code repository management.

Frontend Developer
HNG Internship
10/2022 - 12/2023   *Remote, Nigeria*

Achievements/Tasks

- Gained experience with API integration, resulting in the successful development of and improvements to the user account page of an audio transcription web application.
- Assisted with the management of the codebase by reviewing and merging PRs, deepening my understanding of Git and GitHub.
- Led a small 5-person team contributing to an open-source project, identifying problems and delegating tasks to team members.
- Collaborated with members of the design and backend teams to ensure the page was fully functional and met all requirements.

Software Engineer Intern
Dork Discovery Ltd
07/2021 - 04/2022   *Abuja, Federal Capital Territory, Nigeria*

Achievements/Tasks

- Organized, led and drew up a curriculum for a free 2-week beginner-friendly boot-camp teaching the basics of web programming, aiding 50% of the company staff who taught classes.
- Familiarized myself with backend systems, including MVC model and MongoDB, and used Postman for testing endpoints, resulting in improved understanding and ability to collaborate with backend developers.
- Developed flexibility from working in a startup, learned to appreciate the value of each team and its contribution to the gestalt.
