## Projects

### Developer Portfolio
**https://theavocadocoder.github.io**

This portfolio website was created using HTML, Tailwind CSS, and JavaScript. The site features an avocado-themed design inspired by my GitHub username, 'theavocadocoder.' It includes a light and dark mode toggle, fully mobile-responsive design, and sections covering my projects, about me, and how to contact me.

### Pixel Art Creation WebApp
**https://theavocadocoder.github.io/pixelite**

Pixelite empowers digital artists to express their creativity through pixel art. Users can choose from a range of square canvas sizes, change their 'pen' color, and download their creations.

### TicTacToe Game
**https://theavocadocoder.github.io/odin_tic-tac-toe**

This project is a simple implementation of the classic Tic Tac Toe game using HTML, CSS, and JavaScript.
